

Outreach and Community Partnerships

Pathway Guides collaborate with opiate treatment “Hubs” and local physicians who provide ongoing treatment and other services for individuals in Medication Assisted Treatment. Pathway Guides encourage Medication Assisted Treatment participants to consider the potential benefits of making a personal commitment to participating in peer recovery support as a means to improve their lives, attending medication assisted recovery specific groups, spending time in recovery centers and connecting with others in recovery. Guides are also available to help patients who want to transition toward abstinence-based recovery by introducing them to the peer-to-peer recovery communities who use this approach.

Pathways to Recovery

The Substance Abuse and Mental Health Services Administration (SAMHSA) awarded a Targeted Capacity Expansion Peer-to-Peer grant to the Vermont Recovery Network. The purpose of this grant is to provide recovery support for Vermonters who are seeking or receiving Medication Assisted Treatment for opiate addiction.
