

Building a Collaborative RSO Network

Leveraging RPV to Advance Shared Progress

Workshop Purpose

Learning Objectives

1

Evaluate progress and lessons learned from the RSO process

2

Identify shared requirements causing inefficiency and stress

3

Leverage RPV membership to coordinate and advocate

4

Design & commit to a concrete collaborative process

RSO Progress to Date

Key milestones
achieved

Successes across
centers

Ongoing challenges
and pressures

Shared Challenges for Directors

Overlapping demands

Administrative burdens

Limited resources & duplication of effort

Stress and sustainability concerns

**Discussion:
Shared
Requirements**

Where do we see
duplication across centers?

Which requirements take
the most time and energy?

What could we do better
together?

Leveraging RPV Membership

RPV = statewide
collective strength

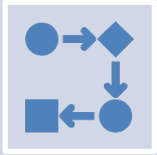

Opportunities:
coordinate shared
systems

Develop
standardized
templates/tools

Action Planning: Building the Process

What process can we create together?

Who will do what (RPV vs. centers)?

What can we pilot right away?

Closing

- Thank you for your participation
- Our shared vision: A sustainable, connected recovery network
